(Alcohol solution)

(Gel sanitizer)

Product Parameters

Appearance						
Model no. (A is for alcohol liquid; C is for alcohol gel or liquid soap)	HE-411A HE-411C	HE-401A HE-401C	HE-400A HE-400C	HE-403A HE-403C	HE-405A HE-405C	HE-406A HE-406C
Maximum capacity	2500ml 84.55oz	2500ml 84.55oz	660ml 22.32oz	550ml 18.60oz	330ml 11.16oz	500ml 16.90oz
Power supply	DC5V/1A or AA x 4 (Alkaline or Rechargeable)	DC5V/1A or AA x 4 (Alkaline or Rechargeable)	DC5V/1A or AA x 4 (Alkaline or Rechargeable)	AA x 4 (Alkaline or Rechargeable)	DC5V/1A & rechargeable	DC5V/1A & rechargeable
Placement	 Desktop, wall-mounted (with standard accessory), or floor stand (with optional floor stand accessory)	 Desktop, wall-mounted (with standard accessory), or floor stand (with optional floor stand accessory)	 Desktop or wall- mounted (with optional accessory)	 Desktop or wall- mounted (with optional accessory)	Desktop	Desktop
Spray volume adjustment	All models have five levels of spray volume adjustment.					
Intelligent power management	The detection interval is extended when no use is sensed for a period of time. As soon as the use is detected, the constant detection will be resumed immediately.					
Sleep Mode (one-touch to wake up) This function can be removed upon request on mass order	The sleep mode would be activated after the dispenser being idled for 24 hours without sensing a use to save the battery power. (ideal for long time away from home or office on weekends and long holidays)					
Voltage stabilization circuit design	Supports running with both AA alkaline batteries x 4 (total 6V) & Ni-MH rechargeable batteries x 4 (total 4.8V)					
Over-discharge protection circuit design	For rechargeable models, the built-in battery will not be damaged if not been recharged for a long time.					
Low battery reminder design	Remind to renew the batteries or recharge the battery in time.
